

Slim Magic

Nutrieeze Slim Magic-Mechanism

Nutrieeze Slim Magic is specially formulated to give better weight management. The balanced nutritional requirements, which are either not synthesized in the body or not available in regular food, of high quality protein, fiber, three natural fat burners and essential nutrients have been formulated in the form of food supplement for obesity and diabetes persons with diet restrictions.

Nutrieeze Slim Magic's vital formulation of Dietary & Essential Nutrients:

- Rich soluble and insoluble dietary fiber from plant sources,
- High quality Proteins from plant sources,
- Essential Nutrients [9 essential amino acids, 27 vitamins and minerals & fatty acid(s)]
- Natural Fat Burners

In order to provide **“vital nourishment”** to each and every corner of the body, Nutrieeze Slim Magic is blended with all the nutrients to ensure easy digestion and high bioavailability of the protein & nutrients. This shows the synergistic effect of Nutrieeze Slim Magic, i.e., components of one ingredient increase the benefit of the others to ensure good health. This not only leads to weight loss, but it also **avoids the dreaded “Yo-Yo effect”** refers to the repeated loss and regain of weight.

Nutrieeze Slim Magic-Mechanism

Particularly, the **Vitamin E** acts as an antioxidant, anti-inflammatory agent and helping to protect cells from the damage caused by free radicals.

Vitamin E boost-up immune system and fights against bacterial and viral infections.

It helps to widen blood vessels and keep blood from clotting within them by inhibiting the platelet aggregation. In addition,

cells use vitamin E to interact with each other and to carry out many important functions.

The **Selenium Mineral** is an important nutrient for reproduction, thyroid gland function, DNA production, and protecting the body from damage caused by free radicals and from infection.

Nutrieeze Slim Magic contains cell protective phytochemicals. It supports restful sleep and sleepy-night cell regeneration. This will give a morning wake-up call with a feeling of highly refreshed.

Nutrieeze Slim Magic proteins directly lowers blood cholesterol levels, modestly elevates HDL and decreases triglyceride levels and finally, it favorably affects Coronary Heart Disease risk factors independent of lipid levels such as LDL particle size and blood pressure and also provides essential fatty acids with minimal amounts of saturated fat.

Nutrieeze Slim Magic is ideal for women who is suffering with obesity

Nutrieeze slim magic is unique for women because they are rich dietary sources of isoflavones, which are known for endocrine active substances, except in case of estrogen hormone. Isoflavones have important contributions to the health of women, particularly for postmenopausal women.

Nutrieeze slim magic potentially reduces coronary heart disease through multiple mechanisms and may be especially beneficial when consumed by young postmenopausal women.

Other Benefits

Nutrieeze slim has a **very low glycemic index -27** (glucose has 100). With a low glycemic index, the blood sugar level increases slightly and the body releases a respective lower amount of insulin. The lower insulin level helps the body to burn more fat. Instead of using protein from muscle mass, the **body takes its energy from fat deposits**, as desired.

The **Rich Soluble Dietary Fiber** content helps to reduce the absorption of fat in the body and make the body muscle cells to burn calories at a much higher rate. The **Insoluble Dietary Fiber** especially play a vital role in slower energy release in the body i.e. body burn calories to digest them and this property is very beneficial for those who want to lose weight, to curb appetite.

The **Pure Proteins** are essential nutrients required for the growth and maintenance of human body. Protein is the major structural component of all cells in the body, especially muscle. In addition, they provide good shape & strength for body organs, hair nourishment, glowing skin, structural support to cells & cell walls in the body. Protein is also needed to form blood cells. Proteins can serve as a fuel source during starvation.

Nutrieeze slim magic's three natural fat burners (Hydroxy Citric Acid, Conjugated Linoleic Acid, L-Carnitine) prevent fat deposition (being made or by intake) in the body by regulating stress hormones called **cortisol**. This helps to manage the body to burn more fat, as a fuel source, from fat deposits to release energy. And thereby an individual starts seeing the results, and begin to manage their belly.

Essential fatty acid-Omega-3

It regulates brain signalling mechanisms in a regulated way to keep health in good condition. Omega-3 also shows anti-inflammation activity and there by regulate body immune system.

Carnitine has been proposed as a supplement to treat a variety of health conditions including heart attack, heart failure, angina, and diabetic neuropathy, improving exercise performance, weight loss.

Hydroxy Citric Acid plays a potential role in modulation of fat metabolism.
